

# Featured Project: Princesshay Retail Development, Exeter

**Stone Type: Sandstone, Limestone, Granite**

In this award winning retail development in the centre of Exeter, Stirling Stone carried out the complete design, supply and installation of various types of stone on the project. These included red sandstone, limestone and granite to façades and walkways.

The development, which opened officially in September 2007, uses different architectural styles and is sympathetic to the scheduled monuments located within the site, including the City Wall and the Cathedral.
