

Featured Project: Central Exchange, Glasgow

Stone Type: Granite, Marble, Sandstone

This building is situated in a conservation area in Glasgow's International Finance District. Its high quality external elevations include sandstone and granite cladding, steps, paving and signage. Its striking atrium entrance features marble and granite floors and walls.

The building houses the Clydesdale Bank and is shown on the back of their £20 note. The project was awarded "Commercial Development of the Year" at the 2005 Scottish Property Week Awards.
